CAREER SERVICES

Stand out from the crowd

THERESUMEOLOGIST.COM

WHO IS THE RESUMEOLOGIST?

We are a team of more than 100 of the very best resume writers, career trainers, and document designers spread throughout Australia. We work with clients across not only Australia, but also America, and The United Kingdom.

In today's marketplace, the level of competition is stronger than ever. Most hiring managers receive hundreds of applications for any professional position and recent studies have shown that only 2% of job seekers make it past the initial resume screening stage. However, there are many steps that you can take that will significantly improve your chances of standing out from the crowd.

We started The Resumeologist because we noticed that many highly skilled and experienced individuals were missing wonderful opportunities simply because they failed to present themselves effectively. We wanted to help.

We get to know our clients, understand their goals, help them clarify their career choices, and present them in the best manner possible, all whilst offering unlimited revisions at an affordable price.

We feel great about the work that we do and would love the opportunity to help you along your journey.

OUR PROMISE

We are in the midst of an extremely competitive and rapidly changing marketplace. You may be looking to progress your career in a particular direction, or simply re-position and better present yourself within your given industry. Whatever your vision, the challenge remains that of standing out from the crowd.

We cannot guarantee your success. To do so would be disingenuous. However, what we can guarantee is a dedicated team who will create all of your work from scratch, offering bespoke presentations that showcase your unique and wonderful traits. Our documents are keyword optimised and ATS compliant. Not only do we have an extensive team of professionals spread throughout the country, we also have an internal quality control team who double and triple check every piece of work before it is sent out.

In the rare event that you are not happy with our initial delivery, our team will continue to edit, change, and update your presentation at no additional cost until you are 100% satisfied with the result.

BRONZE

Resume, Cover Letter, and LinkedIn Profile

The core of your presentation. The non-negotiable base that will allow you to attack any opportunity with confidence. We are all aware of the importance of a well-crafted and engaging resume and cover letter, but many still undervalue the importance of their LinkedIn profile. Where do you stand?

According to recent studies, more than 70% of employers check the social media profiles of candidates in an effort to learn more about them. If you think you're better off without any sort of digital footprint, approximately 47% of employers indicated that they will not progress a candidate to the interview stage if he or she does not have a social media presence. The bottom line? You need one. LinkedIn is not a chore; it is a gift. It is by far your best opportunity to showcase your professional image. A well-crafted LinkedIn Profile will attract recruiters and potential employers.

This package will include a professionally written and newly designed resume, a tailored cover letter, and a revamped LinkedIn profile. We will work to ensure that your profile is shown in relevant search results so that both satisfied clients and interested employers can begin interacting with your page.

SILVER

Resume, Cover Letter, LinkedIn Profile, and Professional Profile

It's 2021, and you are a walking, talking media agency, presenting your personal brand to the public each moment throughout the day. We all are. If you want to progress along your desired career path, you must do so professionally. With a little bit of fine tuning, you can take advantage of the many opportunities available.

A professional profile is the additional firepower you need to present yourself as an expert in your chosen field. In fact, it is imperative that all experienced individuals craft this document. It will focus on the more notable achievements enjoyed throughout your career that are so easily lost within the context of a resume.

Have you been published in books or peer-reviewed articles? Are you a member of one or multiple boards? Do you hold honorary titles? Have you delivered keynote engagements at highly regarded events? This information must be utilised to present you as the expert that you are.

This package will include all of the wonderful benefits presented within the first package, along with a custom-made professional profile document.

GOLD

Resume, Cover Letter, LinkedIn Profile, Professional Profile, and Interview Training

Did you know that 33% of employers claim they know if they will hire someone within the first 90 seconds of the interview? What about the fact that 47% of candidates hold little or no knowledge of the company with which they are interviewing? Or that a whopping 38% of candidates forget to even smile?

Your goal is not to make the employer like you. The truth is that your success throughout a job interview is not completely dependent upon your ability to answer certain questions. There is no 'trick' that you can use to hoodwink someone into hiring you.

Your success throughout a job interview is a direct reflection of how you feel about yourself. Your state of mind. Your perspective. The goal that we maintain when taking a client through our Interview Training Program is that of instilling within him or her the confidence necessary to walk into an interview with no fear of losing the job.

You will begin to analyse the suitability of the position, thus shifting the focus off yourself, and onto the interviewer. In this way, you will exhibit a natural confidence and genuine interest in the role.

WHICH CAREER PATH IS RIGHT FOR ME?

Nobody knows. Not even you. That's the point.

The concept of a career path is very different today compared to what it might have been in the past. People are constantly changing and pivoting as they work to discover which path is best for them. Choosing one option does not lock you into that direction for the remainder of your professional career.

You must try as many different things as you possibly can, regardless of your age, in order to find what is right for you. It's the only way forward. It takes time, and a significant amount of discomfort.

Get over it. We all go through it.

Eventually, the path will begin to show itself. We all waste so much time sitting around contemplating what might be best, when the only way to uncover the answer is through taking action. The more effort you put forth, the clearer your perspective and path will become.
